About

Jeannetta Collier, also known as, “**The Divine Master of Mind-Set Transformation**” is an empowerment and motivational speaker, published author, entrepreneur, and businesswoman in the DFW area. As a multi-level business woman my mission is to bring together entrepreneurs, start-ups and business professionals to network with compatible professionals on the path of growing and leveraging their business through collaboration, networking and partnerships. I’m on a mission to “**Get Your Mind-Set Right!**”

Like many of you, I have accomplished many things throughout my life. At the young age of 19, I had my only daughter and decided to go off to college on an academic scholarship. While attending college, I worked as a singer in a nightclub, modeled on runway & print and so many jobs.

A few years later I married and began working for a global real estate franchise corporation. Soon after, I had my son and about 15 years later I moved my family back to Texas. After moving back to Texas, my career took off. I became an entrepreneur, started multiple businesses, political involvements, and the list truly goes on and on.

I had several opportunities and I knew at those moments I had to reach out and grab them before they were gone, even though it was completely out of my comfort zone.

You see I am not different than many of you. I am the little girl from Alta Mesa and the proud daughter for Virgil and Norris Grant, who encouraged me to go for my dreams and never stop pushing to get myself where I want to be.

Author, Speaker, Coach

In 2018, Jeannetta authored her first book, “**The Best YOU: A 365 Day Motivational Journey**”. It takes readers through utilizing short motivational passages as springboards for guided journaling. The writing process was a personal testimony of her journey during a “walk of faith.” As a speaker and coach her goal is to empower, encourage and inspire. To help others harness their power within and to understand that they are more than the air they breathe.

REDEMPTION
PRESS

While writing this book, I've prayed over and ask God for guidance and strength to bring forth a book that would uplift the reads and give them what they will need; whatever that need is. During your journey, I encourage you to immerse yourself in the information on how I can make your path lighter and continue to become enlightened through my writing and speaking. I would love to hear from you, so please reach out through all social media platforms.

In writing "The Best YOU A 365 Day Motivational Journey" I recognized the power of personal motivation to empower women and others to break through their own barriers, and consequently corporate barriers. The book affords readers the harnessing power of motivation to begin each morning thoughtfully, allowing positivity to resonate throughout the rest of their day.

Each day utilizes short motivational passages as springboards for guided journaling. With my personal coaching of Imaginary Glass Ceiling and The Bet YOU A 365 Day Motivational Journey, my personal mission is to break the invisible barrier, not just the corporate glass ceiling, also in our own personal ceilings.

Starting with "Day 1" instead of a calendar date, The Best You invites readers to begin whenever they choose and move onward through the book—and a year's worth of journaling opportunities—without the pressure of a schedule. Guided by poems, Bible verses, quotes, inspirational and motivational thoughts, and questions to answer, readers will journal their growth in love, wisdom, and strength while addressing their pain, understanding the process of healing, and impacting others through works of service and acts of love.
